

# WELCOME TO *PALM SPRINGS*

La estética midcentury está de moda y no hay mejor lugar para evocar su regreso que Palm Springs, donde modernismo y glamour se mezclaron creando un estilo propio.

Hisbalit toma esta estética como punto de partida y utiliza las palmeras, el gusto por el color y el espíritu de las famosas “pool parties” para proponer un mundo de motivos geométricos, brillos irisados y decoración retro que se juntan en formas y combinaciones de color arriesgadas y caprichosas.

Midcentury aesthetics are fashionable and there is no better place to evoke their return than Palm Springs, where modernism and glamor mixed creating their own style.

Hisbalit takes this aesthetic as a starting point and uses palm trees, a taste for color and the spirit of the famous “pool parties” to propose a world of geometric patterns, iridescent glitters and retro decoration that come together in shapes and color combinations risky and capricious.
