

# TEXTURAS TEXTURES

Descubre un nuevo concepto, abre las puertas a la decoración sensorial, al movimiento dentro de lo estático. Las superficies como mezcla de texturas, de acabados, de luces. Cada centímetro es diferente, cambia y evoluciona con la luz y el movimiento, se transforma mostrando infinitas caras.

Piezas brillantes, mates, suaves, ásperas y rugosas, colores metalizados, irisados, nacarados combinadas en bloques de color neutros para ceder protagonismo al concepto fundamental: la mezcla de texturas.

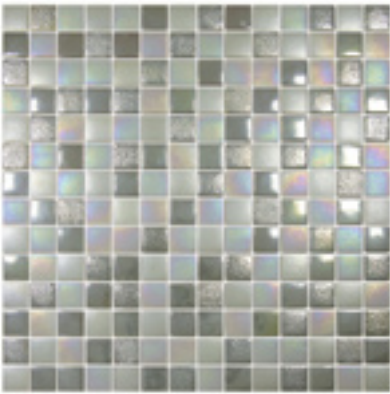

Discover a new concept. Open the doors to sensorial décor, of movement within the static, offering surfaces as a play of varied textures, finishes and light. Each centimetre is unique, evolving and transforming with light and movement, with myriad different facets.

Glossy and matte pieces with smooth, coarse and rough surfaces, metallised, iridescent pearlescent colours, combined in blocks of neutral colour to highlight the fundamental concept: the combination of different textures.
